Dr. Walter W. Weyzen
Human Health Studies Program
Division of Biomedical and
Environmental Research
Department of Energy
Washington, D.C. 20545

Dear Dr. Weyzen:

Attached is a copy of a letter I sent to you on November 7, 1977. Perhaps you did not receive it. I still believe it is important for several of us to meet and compare notes on the several visits to Spain in 1977.

Perhaps we can arrange to meet early in 1978. A convenient time for all concerned might be during or near the February 1-2 Biomedical Program Directors' meeting in Germantown.

Best personal regards.

Sincerely,

A handwritten signature in black ink, appearing to read "Chet", written in a cursive, stylized script.

Dr. Walter W. Weyzen
Manager, Human Studies Programs
Division of Biomedical and
Environmental Research
Department of Energy
Washington, D. C. 20545

Dear Dr. Weyzen:

This is a follow-up to our conversation of several weeks ago concerning Project Indalo. I think it would be very useful for Phil Dean and me to meet with you and other interested DOE personnel to discuss our recommendations for Project Indalo as a result of our visits to Spain earlier this year. I think an hour to 90 minutes would be sufficient for us to provide you and your colleagues with the historical background as well as the current situation and our recommendations for the future.

* I plan to be in the Washington area November 22 and would be able to meet with you on that day or perhaps sometime on November 21, if necessary.

I have not forgotten about the information I obtained on my trip to England, and I promise to share with you. I will bring it along with me to discuss with you during my next trip to Washington.

Best personal regards.

Sincerely,

Chet

* I learned at Livermore meeting
that you wouldn't be available on
21-22 Nov. Can you suggest date?
